# New Jersey's CONSTRUCTION & UTILITIES Industry Cluster

Prepared By: New Jersey Department of Labor & Workforce Development Office of Research & Information Bureau of Labor Market Information Spring 2017

State of New Jersey Department of Labor and Workforce Development

#### THE GOAL OF THIS REPORT IS TO GET AN "IDEA" OF WHAT CONSTRUCTION AND UTILITIES MEANS TO NEW JERSEY

*Identify* the types of industries and establishments that make up the construction/utilities industry cluster based on a standard industry classification system

**Describe** any similarities and differences among its components with regard to such variables as employment, wage, occupation type, education, and demographic characteristics

**Examine** any present distinctions within the cluster and its components that give New Jersey a competitive advantage compared to neighboring states, regions or the nation, or show areas where New Jersey could improve to add to the state's economy

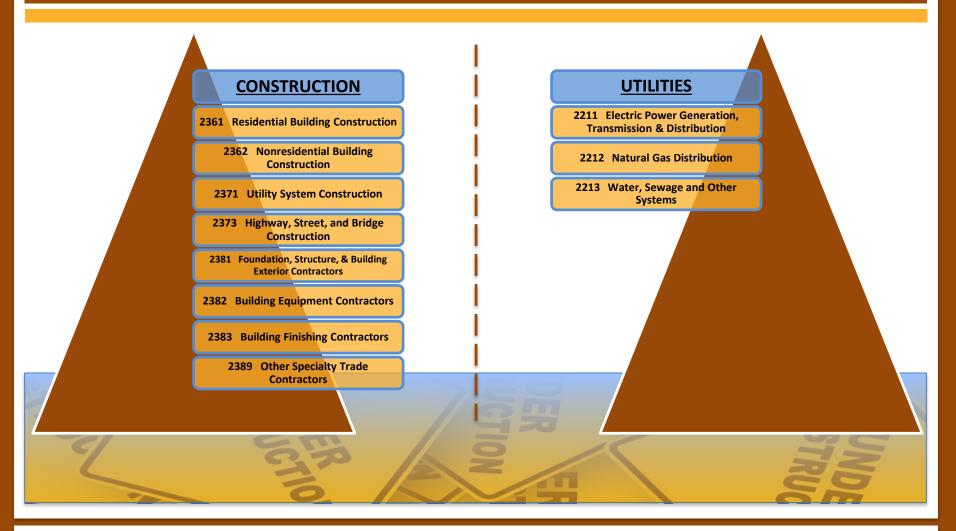

<u>Analyze</u> the current state of the construction and utilities industry cluster and provide an outlook for employment into the future

#### NEW JERSEY CONSTRUCTION & UTILITIES INDUSTRY CLUSTER NORTH AMERICAN INDUSTRY CLASSIFICATION SYSTEM (NAICS)

## **CONSTRUCTION INDUSTRY CLUSTER: OVERVIEW**

#### **NEW JERSEY CONSTRUCTION OVERVIEW**

- The construction industry is divided into 3 components:
  - Specialty Trade Contractors
  - Construction of Buildings
  - Heavy and Civil Engineering
  - In 2016 New Jersey's Construction industry averaged 153,000 jobs. An increase of 4,600 (+3.1%) jobs from 2015's average.

- More than 115,700 people were employed in occupations classified as construction and extraction across the state in 2015.
- In 2015, the construction industry averaged a \$67,675 salary.

#### **2016 CONSTRUCTION INDUSTRY EMPLOYMENT**

 In 2016, specialty trade contractors made up nearly two-thirds of the construction industry employment; construction of buildings 23 percent; and heavy and civil engineering 12.7 percent.

Over the past 10 years (2006-2016) the construction industry had an overall decline of 21,900 jobs, but hit its peak in 2006 with 174,900.

State of New Jersey Department of Labor and Workforce Development

### UTILITIES INDUSTRY CLUSTER: OVERVIEW

#### **NEW JERSEY UTILITIES OVERVIEW**

- Utilities encompasses a wide range of subcategories in regards to generation of our electricity. Utilities has multiple classifications of establishments that produce electricity such as fossil fuel, nuclear, solar, and wind. The NAICS excludes a focus in waste management from this sector's employment.
  - The average utility industry's salary was \$116,259 in 2015 increasing \$3,250 (2.9%) since 2014.
    - The utilities sector has very few establishments (349 units), which only account for .14 percent of the overall units in New Jersey.

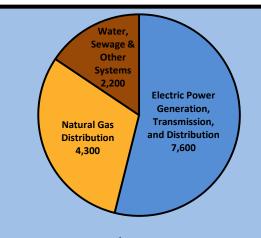

State of New Jersey Department of Labor and Workforce Development

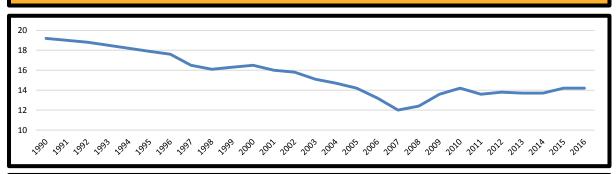

### **2016 UTILITIES INDUSTRY EMPLOYMENT**

- Utilities is divided into three categories:
  - Electric power generation, transmission, and distribution.
  - Natural Gas Distribution.
  - Water, Sewage and Other Systems

In 2016, electric power generation, transmission, and distribution made up more than half (53.5%) of the utilities industry. From 2006-2016, the utilities industry employment has gained 1,000 jobs. The industry has recorded 14,200 jobs every 5 years (2005, 2010, 2015) and has now maintained those numbers in 2016. The lowest employment over the ten year period occurred in 2007 (2,200).

Prior to 2005 (1990-2004), utility employment numbers never dropped below 14,700 (2004), but reached their highest numbers (since the Current Employment Statistics' records) in 1990 (19,200).

## **CONSTRUCTION INDUSTRY CLUSTER:** EMPLOYMENT ANALYSIS

#### **CONSTRUCTION ESTABLISHMENTS BY INDUSTRY**

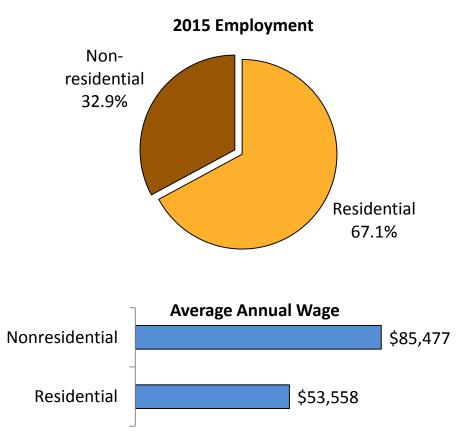

- In 2015, there were 21,622 establishments in the construction industry employing people in New Jersey.
- Nearly 85 percent of construction of building establishments perform work on residential buildings.
- Specialty trade contractors make up nearly two-thirds of all construction industry establishments.

### **CONSTRUCTION OF BUILDINGS INDUSTRY**

- Establishments in the construction of buildings industry decreased by more than 18 percent (-831 units) from 2005 to 2015.
- Construction of buildings has decreased in its annual average employment by 7,810 jobs (-19.0%) from 2005 to 2015, but since 2010 has increased employment 16.2 percent (4,656 jobs).
- Jobholding increased 16.2 percent while the average weekly wage went from \$1,135 to \$1,232 during the five-year period 2010-2015.
- Construction of buildings is made up of both non-residential and residential building. In 2015, residential building employed 22,411 while non-residential building employed only 10,979.

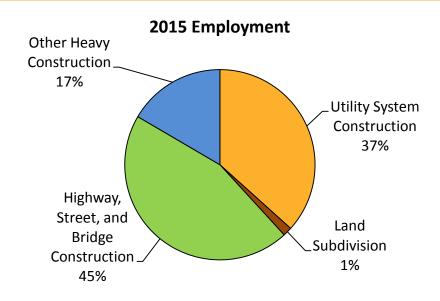

State of New Jersey Department of Labor and Workforce Development

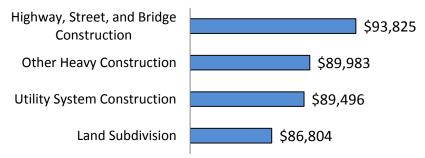

#### HEAVY AND CIVIL ENGINEERING CONSTRUCTION EMPLOYMENT

#### 2015 Average Annual Wage

- From 2010 to 2015 heavy and civil engineering establishments decreased by -5.9 percent or 60.
- Annual average employment increased by approximately 21.3 percent (3,532 jobs) since 2010.
- Land subdivision lost almost 1/3 of its employment (-32.5%, or -149 jobs) from 2010.
- Payroll employment increased by 15.5 percent and the average weekly wage increased from \$1,524 to \$1,759 over the five-year period.
- 2015 employment: highway, street, and bridge construction (9,107), utility system (7,382), other heavy construction (3,336), and land subdivision (309).

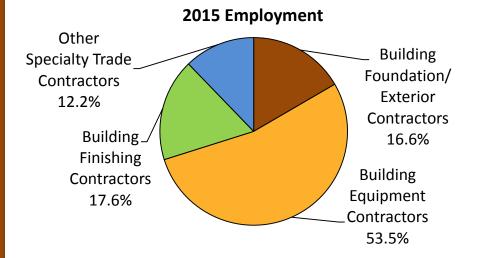

State of New Jersey Department of Labor and Workforce Development

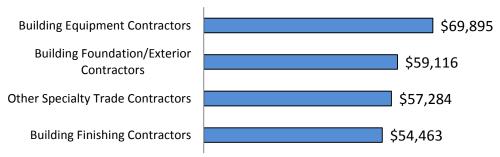

#### SPECIALTY TRADE CONTRACTORS

#### 2015 Average Annual Wage

- From 2010 to 2015 specialty trade contractors gained in its annual average employment (11.7% or 9,790 jobs).
- Establishments decreased by 1,839 or
  -11.7 percent, but gained an equal percent of employment (11.7%).
- While establishments decreased and employment increased, the average yearly wages also increased from \$57,696 (2010) to \$63,840 (2015) during the five-year period.
- Specialty trade contractors employed 93,501 in 2015. Building equipment contractors employed the most (50,039), then building finishing contractors (16,493), building foundation/exterior contractors (15,538), and other specialty trade contractors (11,432).

State of New Jersey Department of Labor and Workforce Development

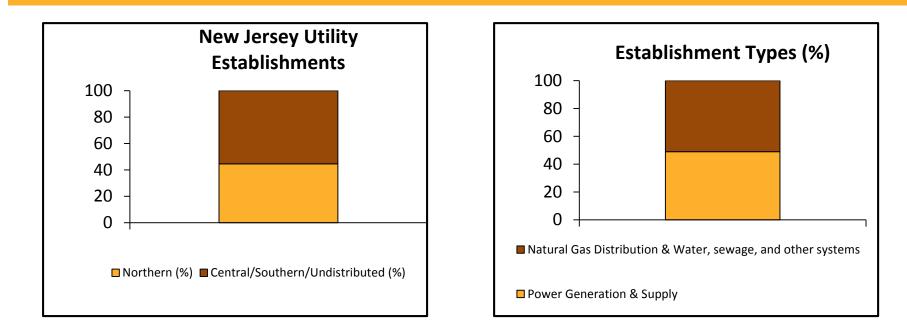

## **UTILITIES INDUSTRY CLUSTER:** EMPLOYMENT ANALYSIS

#### UTILITY ESTABLISHMENTS BY INDUSTRY

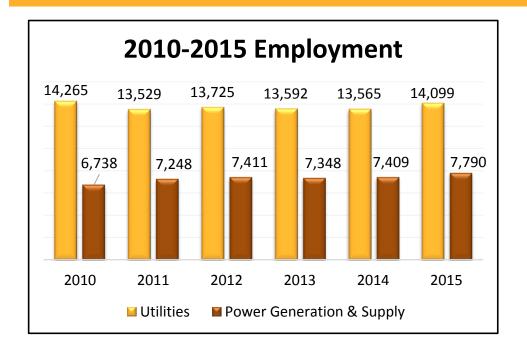

- In 2015, there were roughly 349 establishments in the utility industry employing people of all ages, genders, races, and educational backgrounds in New Jersey.
- Nearly half of utility establishments come from power generation and supply.
- Approximately 44.6 percent of establishments are located in the Northern New Jersey region.

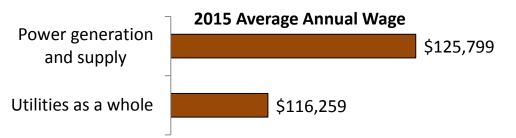

#### **UTILITY INDUSTRY EMPLOYMENT 2010-2015**

- Establishments in the utility industry increased by an estimated 7.1 percent from 2010 to 2015.
- Utility has seen a slight decrease in its annual average employment by -1.2 percent (166 jobs) despite the slight increase in establishments.
- During the five-year period of 2010-2015, the utility industry has seen an increase of 16.8 percent in average weekly earnings from \$1914 to \$2236 a week.
- Power generation and supply saw an employment increase of 15.6 percent (1,052 jobs) from 2010-2015. This sector accounted for more than half of 2015's utility industry employment.

## NJ CONSTRUCTION INDUSTRY EMPLOYMENT

#### NJ CONSTRUCTION EMPLOYMENT BY INDUSTRY

• The construction industry has seen a significant decline in the last 10 years (2006-2016). Construction has seen an overall drop of 21,900 (-12.5%).

• However, in the past 5 years (2011-2016), construction has gained 23,100 employment (17.8%). Since 2010, construction has added jobs yearly, but has yet to reach its' 2006 peak of 174,900 (-26,900).

• Over the last year (2015-2016), construction experienced a 3.1 percent increase, adding 4,600 jobs. Since 2010, construction has seen positive growth with the largest increase over this period in 2012-2013 (7,200; 5.2%).

Specialty Trade Contractors

- Heavy and Civil Engineering Construction
- Construction of Buildings

Shaded vertical bars indicate national recessionary periods as determined by the National Bureau of Economic Research (NBER) • The three construction subsectors have all increased from 2011-2016. Construction of Buildings has seen an increase of 6,900 (24.4%), Heavy and Civil Engineering has seen a 2,700 (16.2%) increase and Specialty Trade Contractors has seen a 13,500 (15.9%) increase.

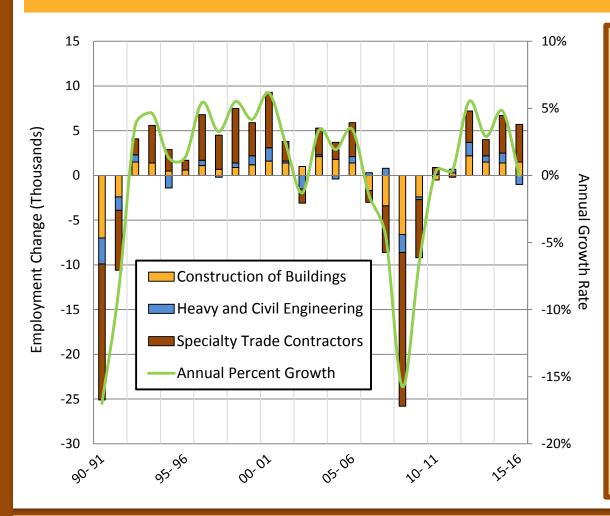

State of New Jersey Department of Labor and Workforce Development

### NJ CONSTRUCTION EMPLOYMENT BY INDUSTRY ANNUAL AVERAGE EMPLOYMENT CHANGE 1990-2016

• From 2008-2009, construction experienced the largest total annual average employment decrease since 1990. A total of 25,800 jobs were lost, largely in part to steep declines in the specialty trade contractors industry (-17,200).

• For the fourth consecutive year, the construction industry experienced overall employment growth. However, one component of construction from 2015-2016 had a decrease in employment. Heavy civil engineering lost 1,000 jobs, specialty trade contractors added 4,200 jobs, and construction of buildings increased by 1,500 jobs.

• The recent recession caused a dip in employment over recent years, but the 22,600 jobs added over the last four years (2012 – 2016) is a sign of recovery.

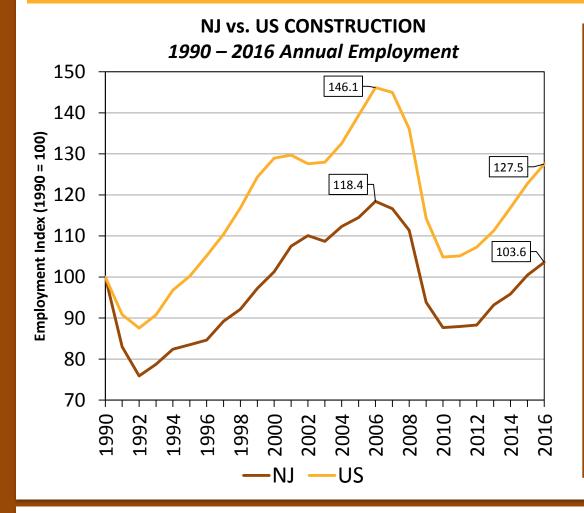

State of New Jersey Department of Labor and Workforce Development

#### NJ VS. US CONSTRUCTION EMPLOYMENT TRENDS SINCE 1990

• In 1992, the United States experienced the largest decline from the base year of 1990 (-12.4%). Since then, the United States has recovered to +27.5 percent above the base year.

• Following the same trend as the United States, New Jersey experienced its largest decline from the base year in 1992 (-24.1%), but eventually recovered and peaked in 2006 (+18.4%).

• In 2016, employment for New Jersey and the United States are both greater than the base year.

State of New Jersey Department of Labor and Workforce Development

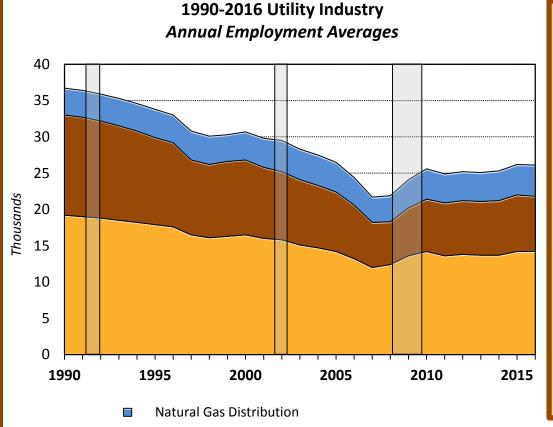

## NJ UTILITY INDUSTRY EMPLOYMENT

#### NJ UTILITY EMPLOYMENT BY INDUSTRY

- Electric Power Generation, Transmission, and Distribution22
- Utilities as a whole

• From 1990 to 2016, annual average utility employment has dropped by 5,000 jobs or approximately -26.0 percent.

• Since 2010, utility employment leveled out at 14,200 with a drop between 2011-2014 and bouncing back in 2015. 2016 employment has remained steady.

• Electric power generation, transmission, and distribution has seen an 4.1 percent increase between 2011-2016.

• From 2015-2016 utilities did not experience any change as a whole. However, natural gas distribution saw a 2.4 percent increase while electric power generation, transmission, and distribution saw a -2.5 percent decrease.

Shaded vertical bars indicate national recessionary periods as determined by the National Bureau of Economic Research (NBER)

### NJ UTILITY EMPLOYMENT BY INDUSTRY ANNUAL AVERAGE EMPLOYMENT CHANGE 1990-2016

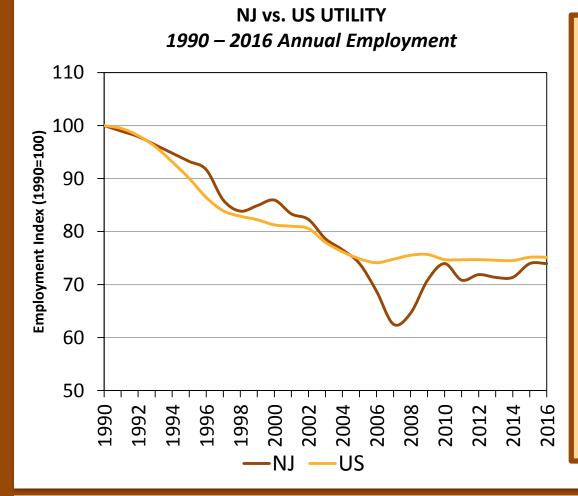

State of New Jersey Department of Labor and Workforce Development

### NJ VS. US UTILITY EMPLOYMENT TRENDS SINCE 1990

• During this period, both New Jersey and the United States showed peak employment in 1990.

• Since 1990, the US saw a significant drop of employment through 2005 at a greater rate than New Jersey until 2006, in which NJ's percentages dropped lower than the US.

 NJ saw a significant decline in employment going into 2006 (5.2%), but climbed back with 6.2 percent through 2009.

• In 2016, employment for New Jersey and the United States both showed steady employment with zero overall changes from 2015.

### CURRENT CONSTRUCTION DEVELOPMENTS BY REGION

### NORTHERN REGION DEVELOPMENTS

 <u>American Dream Meadowlands</u> - More than 400 retailers, restaurants, and services; 638,000-square-foot indoor amusement park and water park complex; Indoor ski and snowboard park; Observation wheel; 200-foot "drop ride"; Performing arts center that seats 2,400 to 3,000; National Hockey League-sized ice rink; 180,000-square-foot movie complex with more than 5,000 seats; Aquarium; 18-hole miniature golf course (Northjersey.com).

Update: The project is now expected to be completed around the middle of 2018 and will also have DreamWorks involved with the waterpark and a Nickelodeon-themed amusement park. (Northjersey.com)

- <u>Pulaski Skyway Project-</u> A replacement of the entire roadway deck of the 82-year-old, 3.5-mile causeway and bridge system, paid for by the Port Authority of New York and New Jersey at an estimated cost of \$1.2 to \$1.5 billion (Star-Ledger). Update: Additional steel work will be necessary to complete the project. The increase in steel work required increased the bid of contract three by \$1-\$2 million and increased contract four by an estimated \$15-\$20 million. The project is still expected to be completed by 2020. (njtvonline.org)
- <u>Woodmont Properties and Roseland Residential Trust</u> *Morristown, NJ* In December, they have started the Metropolitan Lofts luxury apartment building which was home to the Epstein Department Store. The apartment building will have 59 one and two bedroom units as well as 1,100 square feet for retail space. It is the "final component in a project that includes luxury residential buildings, 53,000 square feet of retail space called the Shops on the Green and a 795-car public parking facility." (njbiz.com)
- <u>700 Jackson Street development project</u> Hoboken, NJ is breaking ground on a new 2-acre "resiliency park," plaza and gymnasium. One acre will be for play with an open plan and seating. The 2<sup>nd</sup> acre will hold a plaza area for vendors and seasonal markets as well as step seating. In addition, 6,835 square feet public gymnasium, approximately 30,000 square feet for retail, parking garage and 424 residential units (42 affordable housing) are all part of the project. (hobokennj.gov)

### **CENTRAL REGION DEVELOPMENTS**

- <u>Ocean County Walkway</u> Toms River, NJ Ocean County has approved a \$3.7 million project to complete a new walkway utilizing an existing underground tunnel. It will be used as a secure transport of inmates from its jail to the courthouse. A small parking area may be affected for up to a year and will need to have those that park there relocated. J.H Williams Enterprises, Inc. will be heading up the project. Ocean County is also seeking a \$40 million renovation on the County's government area. (app.com)
- <u>South Beach at Long Beach condos</u> Long Branch, NJ In 2016, FEM South Beach Urban Renewal started a \$40 million beachfront condominium project. There will be 47 luxury units that will cost about \$1.2 million each on 17-acres in the Beachfront South Redevelopment Zone. There are many new projects in this zone that are expected as well with Mark Built Homes Development's 7-story building with residential units, Bluffs Development Urban Renewal's covering three lots to make their 33 condo units and Blackridge Realty's 40-unit apartment building. South Beach is expected to be completed in two years or less. (app.com)
- <u>Trenton Central High School</u> *Trenton, NJ* December 2016, Governor Chris Christie broke ground on a new high school for grades 10 through 12. The new transformation of the high school is currently estimated to cost \$155 million and be ready for the fall 2019 school year. The design of the new facility was awarded to another New Jersey company, Terminal Construction Corporation for \$116 of the proposed budget. "The school will include five Small Learning Communities (SLC) and provide Career Technical Education programs." Additional extracurricular amenities will be added as well, such as a swimming pool and dance studio. (nj.gov)
- <u>The College of New Jersey</u> \$40 million from the Building our Future Bond Act and \$1 million from the Higher Education Technology Infrastructure Fund will be used to develop a new STEM (Science, Technology, Engineering and Mathematics) facility (NJBIZ). Update: The \$75 million STEM Complex Project's Phase 1 of the complex is expected to be completed by August 2017. "Later phases will include renovations of our existing science and engineering buildings." (science.tcnj.edu)

### SOUTHERN REGION DEVELOPMENTS

- <u>Atlantic City Gateway Project</u> Atlantic City, NJ Stockton University is partnering with Atlantic City Development Corp. to open a new residential campus in the old Atlantic City High School. They will also include additional housing and a student center for about 520 students right on the boardwalk. The academic building will be able to hold 1,800 students. In addition, there will be 879 parking spaces as well as new offices for South Jersey Gas. This project is scheduled for completion in 2018. (www. stockton.edu)
- <u>Rutgers University</u> Camden, NJ Rutgers University is also expanding and constructing a 101,000-SF, four-story, steel-framed new School of Nursing and Science strategically near public transportation. This will be the main facility for the "areas of biology, chemistry, computational and integrative biology, nursing, and physics at the undergraduate, graduate, and doctoral levels." This triangular shaped building is scheduled to be utilized Spring 2017. (www.hrcg.com)
- <u>Cape May County project</u> Ocean City, NJ This project's focus is on the 34th Street bridge and West 17th Street bridge. The 34th Street bridge (an \$8 million project) construction has begun to replace some of the 1964 decking with high performance concrete as well as steel and railing repairs. It is scheduled to be completed June 2018. The West 17th Street bridge is to be replaced with a precast concrete structure and have 6ft wide shoulders and sidewalks. This estimated \$2 million project is scheduled to start January 2017. (www.ocnj.us)
- <u>The Lidl Company</u> Millville, Vineland and Upper Deerfield Township Lidl is the owner of a German "no-frills" supermarket chain called Save-A-Lot. Currently they are setting up shop in three Cumberland County locations to meet their goals of 150 36,000SF stores on the East Coast by the end of this year (2017). Here "you'll find anything from groceries to clothing" and you bring your own bags. They are seeking out the money conscious shoppers and are aiming to hit their 2017 goals and have already started their construction in Vineland. (www.pressofatlanticcity)

### **CURRENT UTILITY PROJECTS**

### UTILITIES IN THE NEWS

Monmouth County - Jersey Central Power & Light has proposed what is called the Monmouth County Reliability Project (MCRP). This will be "10-mile, 230-kV transmission line on an existing right-of-way between the energy substations in Aberdeen and Red Bank." This project will also add "substation enhancements and modern technology upgrades" including getting rid of the old style poles and utilizing more appealing monopoles. Cost for this project is expected to be around \$111 million and has been deemed necessary by *PJM Interconnection* for dependable power and reducing the "length and frequency of service disruptions." This project is expected to create approximately 245 jobs and is scheduled for August 2017 thru June 2019. (monmouthreliability.com)

<u>Camden County - Camden County Municipal Utilities Authority</u> is implementing a new plan in 2017 for their Camden waterfronts. This will be part of a \$50 million plan to eliminate flooding (CSO Long Term Control Plan) which will include "green infrastructure program, a new stormwater pumping station and upgrades to the existing combined sewer system and the wastewater treatment plant." In addition, *Camden SMART Partners utilized* technology to their residents creating a platform for their cell phones or computers in which they can upload photos of flooding with a description. These photos are then "sent directly to Camden SMART Partners and to *American Water*, the city's water utility company, which then identifies a best solution." (patch.com)

Morris, Somerset and Union Counties - American Water will begin their \$5.8 million pipe replacement plan in 2017. There is approximately 20,800 feet of aging piping from the 1920s that will be replaced with ductile iron pipes. They expect that their customers "should experience increased water flows for residences and fire protection, and continued improvement in reliability." "These water main improvements are part of New Jersey American Water's multimillion dollar program to accelerate the renewal of water infrastructure that is reaching the end of its useful life." (waterworld.com)

# CONSTRUCTION INDUSTRY CLUSTER: OCCUPATIONAL PROJECTIONS & OUTLOOK

FUTURE

### NJ CONSTRUCTION INDUSTRY EMPLOYMENT PROJECTIONS

Construction employment is projected to grow through 2024, but at a slower rate (1.1%) than the 2022 Projections had shown.

Actual Projected

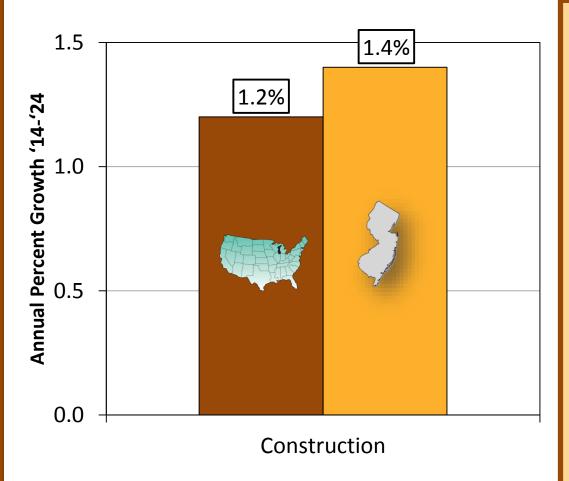

State of New Jersey Department of Labor and Workforce Development

Source: NJ Department of Labor & Workforce Development, Current Employment Statistics and NJ Long-Term Industry Projections 2014-2024

### **GREATER PROJECTED GROWTH FOR THE NATION THAN NEW JERSEY**

• From 2014 to 2024, the construction industry in the United States is projected to grow at an annual rate of 1.2 percent. New Jersey construction is projected to grow at a slightly higher rate of 1.4 percent.

• Over the ten year period, construction in the United States is projected to see a total percent increase in employment of 12.9 percent while New Jersey construction is projected to grow 15.0 percent.

• Construction employment in the United States is projected to grow by 790,400 by 2024.

• New Jersey construction employment is projected to increase by 21,300 by 2024.

State of New Jersey Department of Labor and Workforce Development

Source: NJ Department of Labor & Workforce Development, Bureau of Labor Statistics and NJ Long-Term Industry Projections 2014-2024

### CONSTRUCTION AND EXTRACTION PROJECTED OCCUPATIONAL HIGHLIGHTS

- 11.0 percent employment growth, 2014-2024
- 14,807 additional employment
- 3,600 average annual job openings
- 58.7 percent of these openings are due to replacement demand.

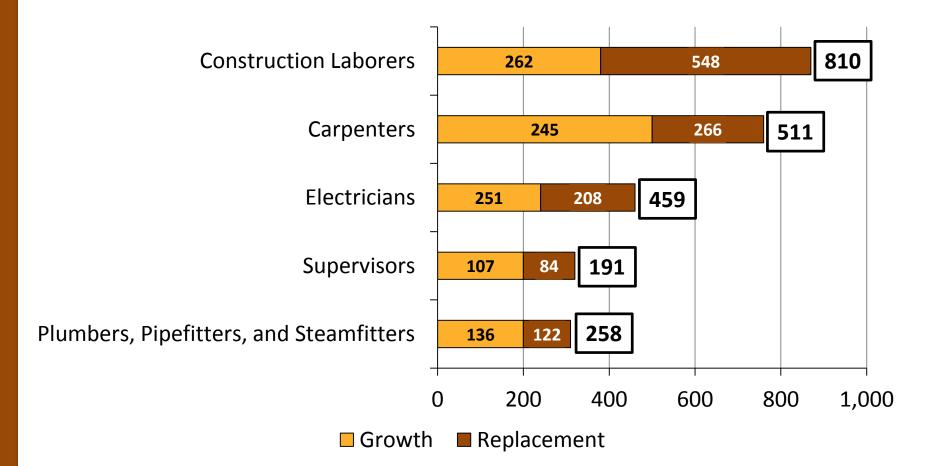

Source: NJ Department of Labor & Workforce Development, 2014-2024 Occupational Employment Projections

### CONSTRUCTION LABORERS PROJECTED TO EXPERIENCE MOST ANNUAL AVERAGE OPENINGS BY 2024

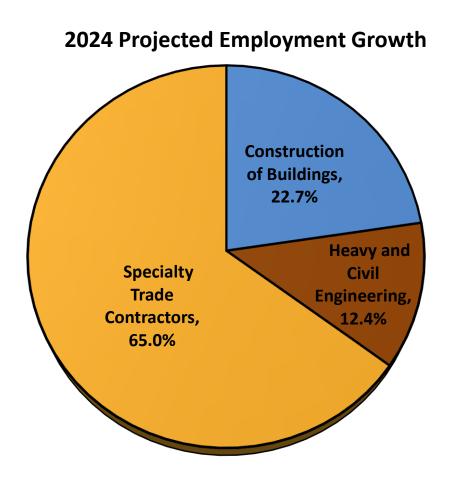

State of New Jersey Department of Labor and Workforce Development

Source: NJ Department of Labor & Workforce Development, 2014-2024 Occupational Employment Projections

### NEARLY 2/3 OF THE PROJECTED CONSTRUCTION EMPLOYMENT GROWTH WILL BE IN SPECIALTY TRADE CONTRACTORS

• From 2014 to 2024, employment in the construction industry is projected to increase by 21,300 with an annual growth rate of 1.4 percent.

• Specialty trade contractors is projected to see the largest annual percentage growth by 2024 (1.6%), followed by construction of buildings (1.3%), and heavy and civil engineering (0.4%).

• Employment Growth:

- Specialty trade contractors + 15,850
- Construction of buildings + 4,600
- Heavy and civil engineering + 850
