New Jersey's **Transportation, Logistics & Distribution** Industry Cluster

Prepared by: New Jersey Department of Labor & Workforce Development Office of Research & Information Bureau of Labor Market Information Spring 2017

State of New Jersey Department of Labor and Workforce Development

Identify the types of industries and establishments that make up the health care cluster based on a standard industry classification system

Describe any similarities and differences among its components with regard to such variables as employment, wage, occupation type, education, and demographic characteristics

Examine any present distinctions within the cluster and its components that give New Jersey a competitive advantage compared to neighboring states, regions or the nation, or show areas where New Jersey could improve to add to the state's economy

Analyze the current state of the health care cluster and provide an outlook for employment into the future

OVERVIEW

- Defining the Transportation, Logistics and Industry Cluster
- Industry Trends
- Detailed Industry Analysis
- Occupational Analysis
- TLD Worker Characteristics
- Outlook

THE TRANSPORTATION, LOGISTICS & DISTRIBUTION CLUSTER CONSISTS OF TWO MAJOR COMPONENTS

Transportation	Distribution/Logistics
 Air Transportation Rail Transportation Water Transportation Truck Transportation Transit and Ground Passenger Transportation Pipeline Transportation Scenic & Sightseeing Transportation Support Activities for Transportation Couriers & Messengers 	 Durable Goods Merchant Wholesalers Nondurable Goods Merchant Wholesalers Agents, Brokers and Wholesale Electronic Markets Warehousing & Storage

The transportation, logistics and distribution industry cluster consists of industries within the **wholesale trade**, **transportation and warehousing sectors**. For the sake of analysis, these industries can be further grouped by those related to **transportation** and those related to **distribution and logistics**.

TRANSPORTATION AND DISTRIBUTION ARE IMPORTANT TO THE STATE'S ECONOMY

In 2015, transportation, logistics & distribution employed 370,260 workers in New Jersey. The cluster employed 11.2 percent of the state's private sector workers. Nationally, TLD accounts for just 8.8 percent of private sector employment.

The annual average New Jersey private sector wage for TLD in 2015 was \$73,325. Total wages for the TLD cluster accounted for 13.2 percent of private sector wages statewide.

TLD contributed more than \$56.8 billion to the state's Real Gross Domestic Product (GDP - chained 2009 dollars) in 2015, the fourth highest dollar amount per state nationwide. New Jersey accounted for more than four percent of the nation's GDP generated from TLD.

INFRASTRUCTURE: SEA

According to 2014 figures (latest available) from the U.S. Army Corps of Engineers, Waterborne Commerce Statistics Center, New Jersey's shipping activity accounts for 11.5 percent of the nation's tonnage of total domestic and foreign cargo volume.

Port of New York and New Jersey

- Managed by the Port Authority of New York and New Jersey, the Port includes the following facilities: Port Newark Container Terminal (Port Newark, NJ), Maher Terminals (Elizabeth, NJ), APM Terminals (Elizabeth, NJ), GCT Bayonne LP (Bayonne, NJ), GCT New York LP (Staten Island, NY), and the Red Hook Container Terminal (Brooklyn, NY)
- Supports 336,600 jobs representing nearly \$21.2 billion in personal income in the New York-New Jersey region according to an economic impact study conducted for the New York Shipping Association
- Ranked third in the U.S. behind Port of South Louisiana, LA and Houston, TX for total tonnage of trade (U.S. Army Corps of Engineers, Waterborne Commerce Statistics Center)
- The World Shipping Council ranks the Port of New York and New Jersey 26th worldwide for container volume in 2014 (latest data available) and third in the USA behind the Port of Los Angeles, CA and Port of Long Beach, CA

INFRASTRUCTURE: SEA

Ports of Camden and Gloucester

- Cocoa is a major commodity for the Port. "The South Jersey Port Corporation terminals have for years been the epicenter of cocoa bean imports into the eastern United States, feeding the nation's and many of the world's largest chocolate processors and confectioners, all within 90 miles of the port." source: South Jersey Port Corporation
- In the last twenty years, the ports of Camden and Gloucester have become the #1 port handling import of wood products in the United States. Source: South Jersey Port Corporation

INFRASTRUCTURE: LAND

New Jersey has an excellent land transportation network, including 39,000 miles of public roadways which carry 75 percent of the more than 600 million tons of goods moved through the state each year. The state's passenger rail network carriers over 928,000 passengers each weekday.

Located between New York City and Philadelphia, New Jersey is within a day's drive of 40 percent of the US population.

Industry experts state that roughly 80 percent of all trucking is estimated to be routes of 400 miles or less. A 400-mile radius of the Newark and Elizabeth waterfront area includes most of the northeastern U.S. and also the major Canadian metropolitan areas of Montreal, Ottawa and Toronto.

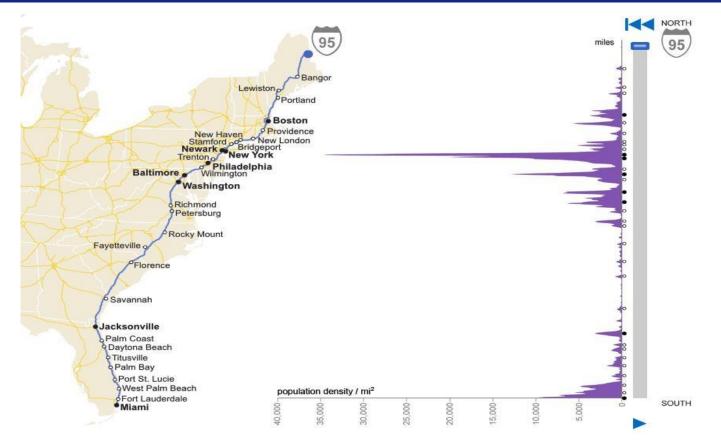

I-95 POPULATION DENSITY PROFILE, 2010

This snapshot of a population density tool produced by the U.S. Census Bureau shows the population within a 5-mile radius of Route I-95. New Jersey lies in the middle of the most densely populated portion.

State of New Jersey Department of Labor and Workforce Development

Source: U.S. Census Bureau Prepared by New Jersey Department of Labor & Workforce Development, September 2016

INFRASTRUCTURE: AIR

Newark Liberty International Airport, managed by the Port Authority of New York and New Jersey, served more than 37.5 million total passengers in 2015 and contributes about \$22.9 billion in economic activity in the New Jersey-New York metropolitan region.

According to Airports Council International North America, Newark Liberty ranks as the 15th busiest airport in the U.S by commercial passenger traffic.

Newark Liberty is also a major cargo hub. In 2015, the airport handled more than 700,000 tons of air cargo.

Newark Liberty serves as a hub to United Airlines, a major employer in the industry.

Source: Newark Liberty International Airport and The Port Authority of New York and New Jersey Airports Council International North America Prepared by New Jersey Department of Labor & Workforce Development, September 2016

INFRASTRUCTURE: AIR

Passenger volume at Atlantic City International Airport was approximately 1.2 million since during the year 2015. In the Summer of 2013, the Port Authority of New York-New Jersey began managing airport operations for the South Jersey Transportation Authority. This agreement was made in order to help the facility expand to its full potential. Source: Atlantic City International Airport

As home to the Federal Aviation Administration William J. Hughes Technical Center, the Atlantic City International Airport is a vital part of the nation's air transit system. The Technical Center, which is a premier aviation research, development, test and evaluation center, is at the forefront of development for NextGen, the Federal Aviation Administration's new National Airspace System.

DETAILED INDUSTRY ANALYSIS

2005 – 2015 EMPLOYMENT TREND BY TWO MAJOR COMPONENTS

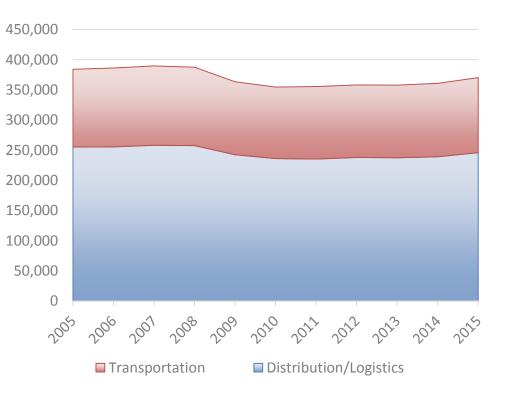

TLD Industry Divided into Two Major Components

The industry sector is composed of approximately two thirds Distribution/Logistics employment and one third Transportation, and has remained that way consistently for many years.

Private sector jobholding in TLD as a whole reached a high of 389,521 in 2007.

As a result of the recession (December, 2007 through June, 2009), jobholding in the sector trended down for three years to a low of 354,616 in 2010.

The cluster improved only slightly over the following years, adding a little more than 6,000 jobs through 2014 before spiking in 2015 with a one year gain of almost 10,000 new jobs.

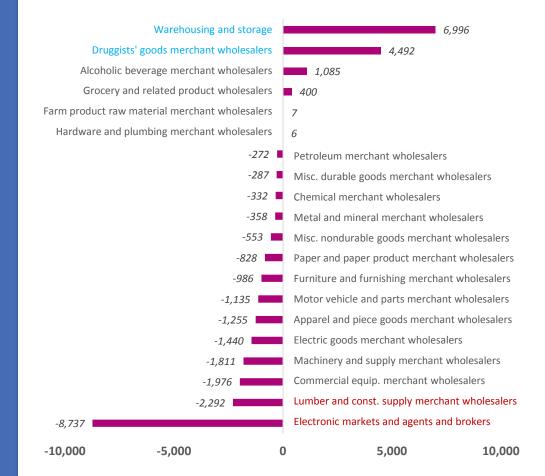

State of New Jersey Department of Labor and Workforce Development

DISTRIBUTION/LOGISTICS SEGMENT

Employment Gains and Losses, 2005 - 2015

The entire TLD industry sector employment remains more than 13,600 workers lower over the period 2005 to 2015 with the Distribution/Logistics segment of TLD accounting for 68 percent of the loss (or 9,276 jobholders).

While the Distribution/Logistics segment as a whole saw significant employment declines over the last decade, the Warehousing and Storage industry proved to be a bright spot. The industry subsector gained almost 7,000 jobs over the period as warehouses and storage facilities continued to pop up along the New Jersey Turnpike and the state's other vital roadways. Druggists' Goods Merchant Wholesalers also saw significant gains, a testament to the state's strong Life Sciences industry.

Electronic Markets and Agents and Brokers lost the most workers while Lumber and Construction Supply Merchant Wholesalers dropped by the largest percentage (-29%).

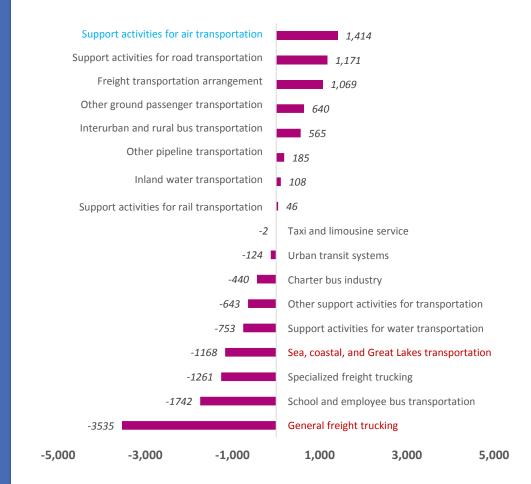

State of New Jersey Department of Labor and Workforce Development

TRANSPORTATION SEGMENT

Employment Gains and Losses, 2005 - 2015

The Transportation segment of TLD declined by 3.4 percent (or 4,358 jobholders) from 2005 to 2015.

Support activities for air transportation gained the most workers in number, but from a relatively low employment base.

General freight trucking lost the most workers, while Sea, coastal, and Great Lakes transportation dropped the largest percentage (-61.0%), though from a low employment base.

(It is important to note that the transportation segment contains several industries that are suppressed because of disclosure issues.)

State of New Jersey Department of Labor and Workforce Development

INDUSTRY GROUPS

Distribution vs. Transportation

The vast majority (66.4%) of employment in the TLD cluster is in the distribution segment.

The six top-ranking industries in the distribution segment account for 38.9 percent of TLD private sector employment.

General freight trucking accounts for 21.3 percent of the jobs in the transportation segment.

Note: Employment data in some transportation industries have been omitted due to disclosure restraints.

TOP INDUSTRIES BY EMPLOYMENT

In 2015, TLD's three top-ranking industry subsectors accounted for 61.3 percent of total jobs

Wholesalers of Durable Goods and Wholesalers of Nondurable Goods are TLD's largest industries. Combined, they account for 51.9 percent of TLD employment.

The third largest industry is truck transportation which accounts for 9.4 percent of New Jersey's TLD employment.

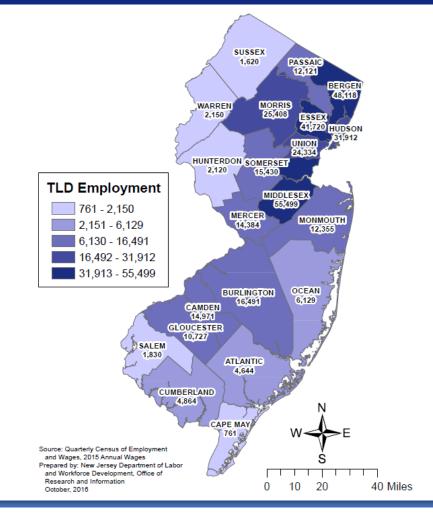

TLD EMPLOYMENT BY COUNTY

Transportation, Logistics & Distribution (TLD) Employment -New Jersey, 2015

Middlesex, Bergen, Essex, Hudson, Morris and Union counties account for 61.3 percent of New Jersey's TLD jobs. These counties are situated near the ports of Newark and Elizabeth and are located along the New Jersey Turnpike.

Other areas in the state that have substantial concentrations of TLD businesses include Burlington, Camden and Gloucester counties which are also located along the New Jersey Turnpike as well as I-295. These counties line the Delaware River, the Ports of Camden and Gloucester, and the City of Philadelphia. Combined, they compose 11.4 percent of the state's TLD employment.

Mercer County is becoming more prominent as a center of TLD employment. Jobholding rose by 60.3 percent since 2007. Developments such as the new Amazon warehouse which opened in Robbinsville in 2014 are contributing to this trend.

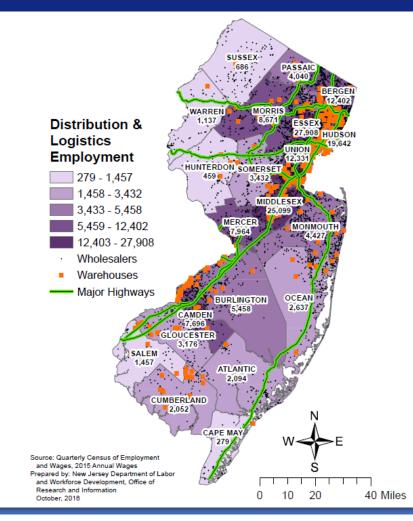

State of New Jersey Department of Labor and Workforce Development

DISTRIBUTION AND LOGISTICS

Distribution & Logistics Employment and Establishment Locations - New Jersey, 2015

Plotting Distribution and Logistics employers along major roadways illustrates the significance of the state's highway system to the TLD industry cluster. They serve as the arteries of New Jersey's vital port system to distribute goods to and from all over the world.

State of New Jersey Department of Labor and Workforce Development

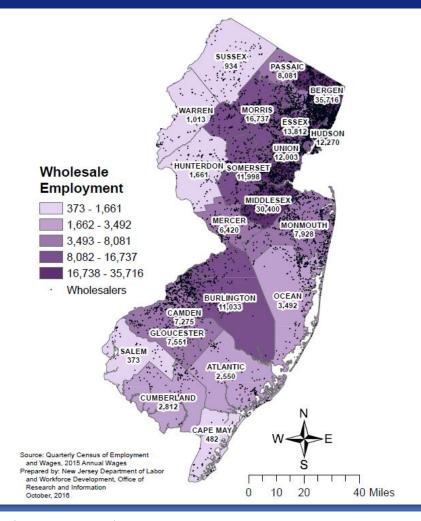

WHOLESALE TRADE

Wholesale Trade Employment and Establishment Locations -New Jersey, 2015

New Jersey's top-ranking counties for wholesale trade employment are Bergen, Middlesex and Morris due in part to the state's high concentration of pharmaceutical firms. Combined, these three counties account for 38.5 percent of employment in wholesale trade and 40.3 percent of jobholding within the druggist goods merchant wholesalers and chemical merchant wholesalers subsector industries.

Statewide, private sector jobholding within the druggist goods merchant wholesalers and chemical merchant wholesalers subsector industries account for 10.7 percent of all wholesale trade industry employment.

The state's top industries by employment within wholesale trade are grocery and related products wholesalers (30,099 jobs or 14.0%) and commercial equipment merchant wholesalers (28,541 jobs or 13.3%).

ANNUAL AVERAGE WAGES FOR TOP 10 INDUSTRIES (BY NJ EMPLOYMENT) IN DISTRIBUTION/LOGISTICS

Warehousing and storage Grocery and related product wholesalers Commercial equip. merchant wholesalers Electronic markets and agents and brokers Druggists' goods merchant wholesalers Machinery and supply merchant wholesalers Electric goods merchant wholesalers Misc. durable goods merchant wholesalers Misc. nondurable goods merchant wholesalers Motor vehicle and parts merchant wholesalers

■ US Wages ■ NJ Wages

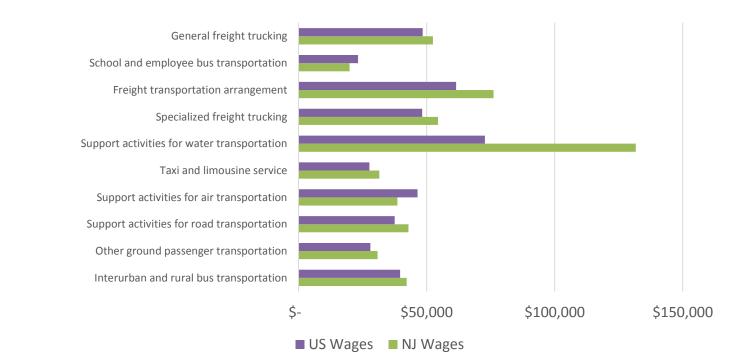

New Jersey's 2015 average annual wage for the Distribution/Logistics component of the TLD industry was \$82,767, ranging from a high of \$172,755 in "Druggists' goods merchant wholesalers" to a low of \$48,159 in "Warehousing and storage." The ten industries shown above account for 192,982 jobs (more than 52% of total TLD employment).

ANNUAL AVERAGE WAGES FOR TOP 10 INDUSTRIES (BY NJ EMPLOYMENT) IN TRANSPORTATION

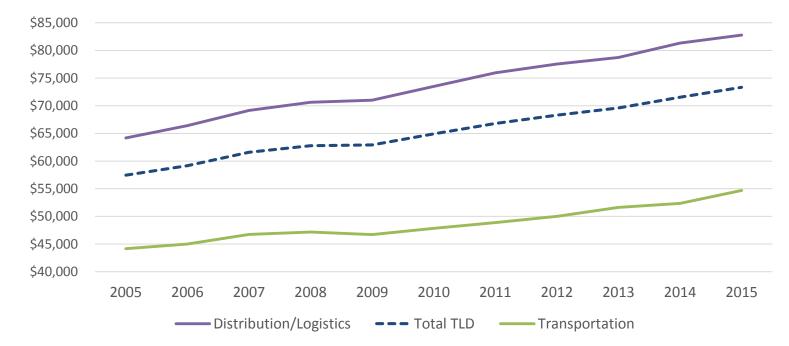

New Jersey's 2015 average annual wage for the Transportation component of the TLD industry was \$54,692, ranging from a high of \$131,674 in "Support activities for water transportation" to a low of \$19,872 in "School and employee bus transportation." The ten industries shown above account for 79,722 jobs (21.5% of total TLD employment).

WAGES 2005-2015 DISTRIBUTION/LOGISTICS VS. TRANSPORTATION

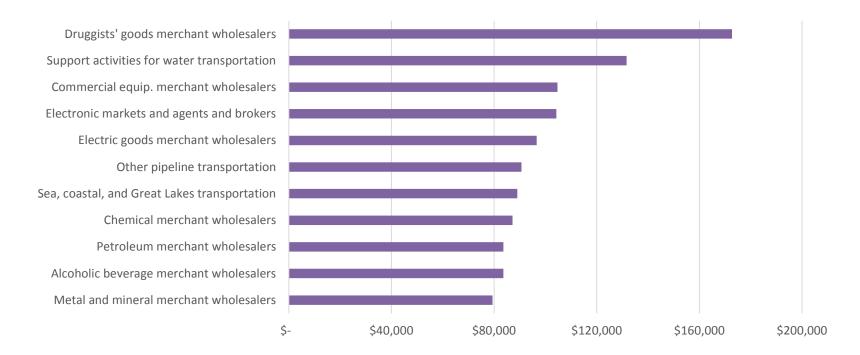

Average annual wages for workers in the distribution/logistics component ranged anywhere from 45 percent to 55 percent higher than those for transportation segment workers over the period 2005 – 2015. Overall, total TLD wages increased an average of 2.5 percent year to year during the same period.

HIGHEST ANNUAL AVERAGE WAGES BY INDUSTRY SUBSECTORS

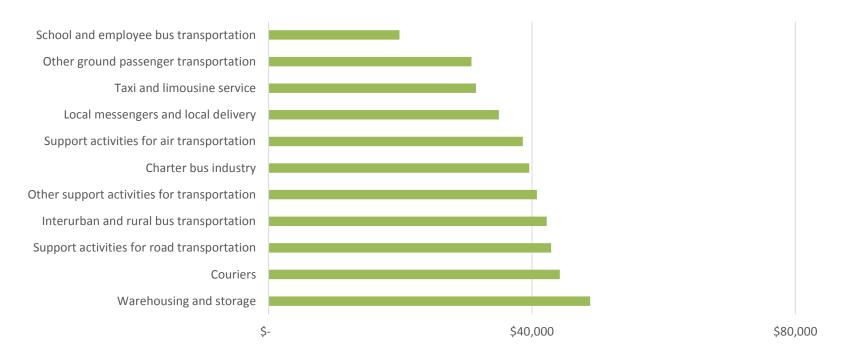

Analysis of average annual wage data by detailed industry reveals that 47 percent of all TLD industries had an average annual wage above \$70,000 in 2015. Those industries account for 51.3 percent of total TLD employment.

LOWEST ANNUAL AVERAGE WAGES BY INDUSTRY SUBSECTORS

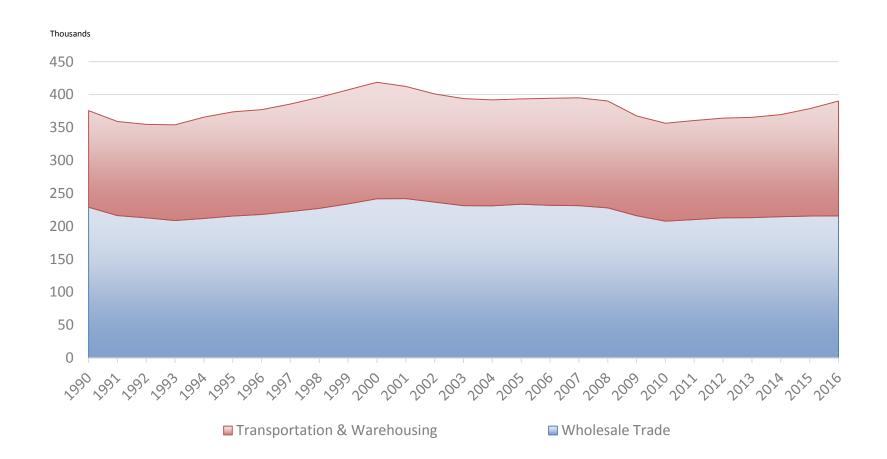

Analysis of average annual wage data by detailed industry reveals that approximately 28 percent of TLD industries had an average annual wage below \$50,000 in 2015. Those industries account for 23.5 percent of total TLD employment.

LONG-TERM INDUSTRY EMPLOYMENT TREND TRANSPORTATION & WAREHOUSING VS. WHOLESALE TRADE

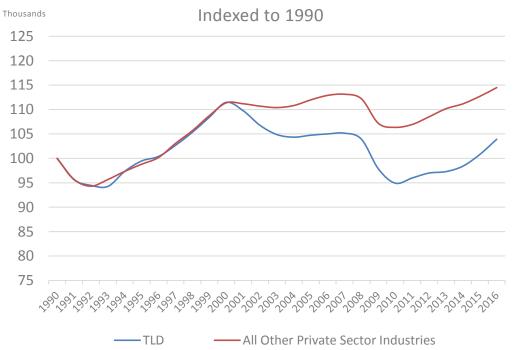

Source: NJ Department of Labor & Workforce Development, Current Employment Statistics, 1990-2016 Annual Averages Prepared by New Jersey Department of Labor & Workforce Development, April 2017

TRANSPORTATION, LOGISTICS AND DISTRIBUTION VS. ALL OTHER PRIVATE SECTOR INDUSTRIES

TLD and Total Private Sector Employment Indexed to 1990

Following a decade of employment increases throughout the 1990s, New Jersey's TLD industry peaked in 2000. After several years of stabilization, the industry suffered heavy losses during the most recent national recession.

TLD jobholding faced three years of contraction in the wake of the recession, with severe declines occurring between 2008 and 2010.

From 2010 onward, the sector as a whole has seen tremendous growth as the economy continues to recover and demand for goods surges.

OCCUPATIONAL EMPLOYMENT BY EDUCATIONAL REQUIREMENT

Educational requirements of TLD occupations

While a majority of the occupations within the TLD industry cluster require no further education beyond high school, many occupations such as truck drivers and forklift operators have licensing requirements.

Some jobs, especially those in secure areas such as shipping terminals or at airports, may also require additional screening or background checks.

Approximately 61 percent of the jobs in the TLD cluster require no further education beyond high school.

WHO ARE THE WORKERS?

CHARACTERISTICS OF NEW JERSEY'S TLD RESIDENT WORKFORCE

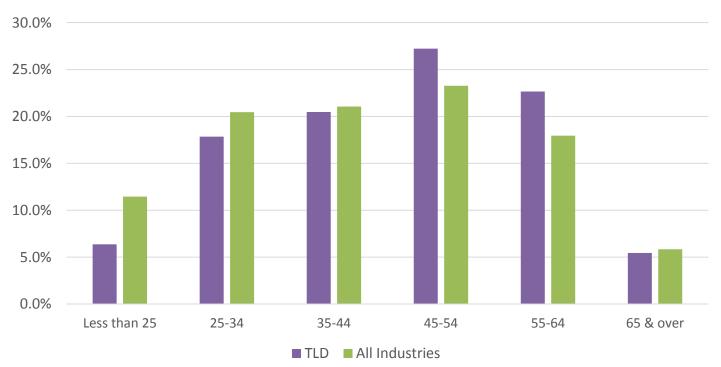

- The American Community Survey (ACS), a product of the U.S. Census Bureau, gives insight to the characteristics of New Jersey residents who are employed in the TLD cluster.
- As the ACS is resident-based, it illustrates the characteristics of people who live in New Jersey and the industries that those residents work in rather than the characteristics of the workers who are employed in the Garden State.

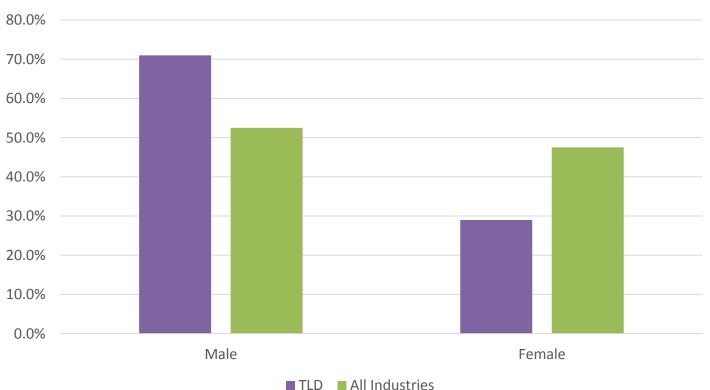

The TLD cluster's New Jersey resident workforce is older than for the state as a whole

New Jersey's resident TLD workforce is predominately male

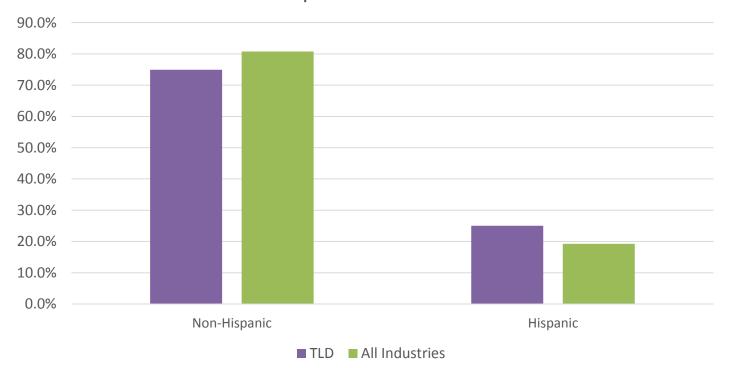

TLD CLUSTER'S RESIDENT WORKFORCE BY HISPANIC ORIGIN

In comparison to other industries, TLD has a larger share of Hispanic resident workforce

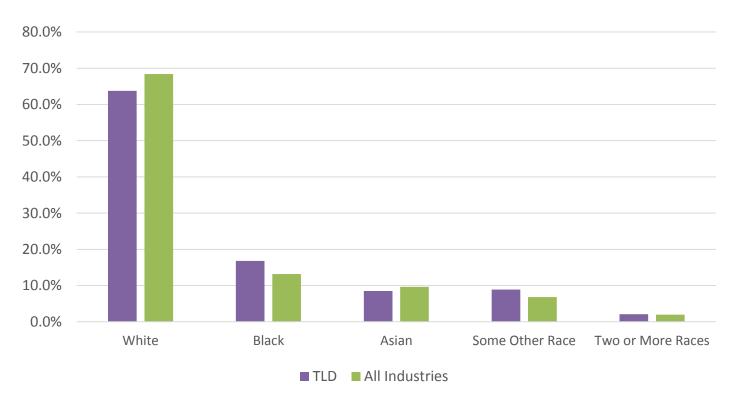

TLD has a larger share of minority resident workforce

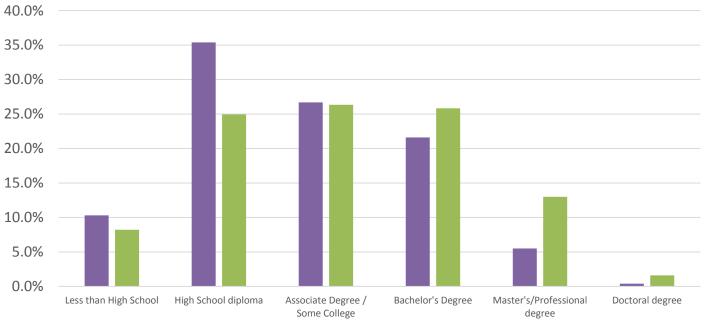

TLD CLUSTER'S RESIDENT WORKFORCE BY EDUCATION LEVEL

A large percentage of New Jersey resident TLD workers have no further education beyond high school
